致股東：

本函旨在通知景順盧森堡基金系列之股東若干修訂，詳情如後所述。此等修訂將載於[2021年3月10日]之SICAV公開說明書。若下述任何修訂不符您的投資需求，建議您得隨時贖回本基金之股份且無需支付贖回費。贖回將依公開說明書之條款進行。

除下述另有說明外，因下述修訂而衍生之所有費用將由管理公司負擔。

A. 過戶登記處兼轉讓代理人之變更

經過一段時間的深入諮詢與供應商分析後，SICAV之管理公司，經董事同意，決定委任 Bank of New York Mellon SA/NV, Luxembourg Branch (「BNYM」) 以取代 International Financial Data Services (Luxembourg) S.A. (「IFDS」)，俾以合乎本公司前與擔任 SICAV 存託機構兼行政代理人之 BNYM 之運作模式。

為免疑義，資料處理代理人，係本次變更之一環，由 International Financial Data Services (Ireland) Limited 改為 BNYM。過戶登記處兼轉讓代理人之變更將於2021年5月3日生效。

該等變更對於基金管理方式及其費用結構概無重大影響。

您此時無需採取任何措施，我們將再次通知您，概述您帳戶之行政事項的全部變化，例如，您的新帳號和聯繫BNYM之資訊。

基於上述變動，自2021年5月3日起，「結算日」定義中的第三段將新增以下劃線處之文字以反映運作實務：

「若於該第三個營業日，結算貨幣或股份類別貨幣所屬國家的銀行並無開門營業，則結算日將為該國銀行開門營業的下一個營業日。」

舉例來說，如果投資以美元計價之股份類別的股東以歐元付款贖回，且美國銀行在接受交易申請後第三個營業日未營業，則結算日係為次一美國銀行營業日（即使歐洲銀行在接受交易申請後第三個營業日營業）。

B. 更新股東通告的通訊方式

第 10.4 節 (股東通告) 將予以更新，以確保在可能情況下且視情況而定，股東將透過電子方式 (例如景順當地網站、管理公司網站(<https://www.invescomanagementcompany.lu/lux-manco/shareholder-notice.html>) 或/及電郵) 接獲通知。

請注意此通訊方式之變更將自2021年4月8日起生效。

C. 證券借出交易之運用

2021年4月8日起，基金得從事證券借出交易。證券借出比重預期為基金資產淨值的 20%。依據公開說明書附錄 A 所載，在正常情況下，基金證券借出之比重占基金資產淨值之上限為 29% 或 50%。

因此，2021年4月8日起，「證券借出交易及購回／反向購回交易風險」適用於本基金。

除公開說明書附錄 A 另有規定外，則 90% 的證券借出收益均歸基金所有，其他 (即 10% 收益，約等於附隨之直接與間接營運成本及證券借出處理費) 則由證券借出代理人保留。

D. 景順能源基金之變更

景順能源基金將自2021年4月8日起進行若干變更，相關細節如下所載。

D.1 投資目標及政策之變更

董事業已決定重新定位景順能源基金，由基本面管理的能源基金轉為能源轉型基金，透過計量方法，佈局提供清淨能源、能源轉型與效率等領域之公司。

特別是，重新定位策略將投資於對替代能源轉型與在經濟層面上更有效率並具永續性之能源使用有正面貢獻的全球公司股票。

經重新定位後的景順能源基金將持續鎖定長期資本成長，從新的計量投資方法中受益。在主題性投資當中，相信此變更將符合客戶對盡責投資之預期，且應足以強化景順能源基金的長期風險報酬取向及成長契機。

景順能源基金的投資目標及政策將予修訂，進一步詳情載於下文：

現行投資目標及政策，以及衍生性金融工具運用	自2021年4月8日起，新投資目標及政策，以及衍生性金融工具運用
<p>本基金的目標，是透過主要投資於一項環球能源股投資組合以達致長期資本增值，包括主要石油公司、能源服務、天然氣基建公司以及石油與天然氣勘探及生產公司，以及開發替代能源資源的公司。本基金集中投資於價格合理而且生產量增長及盈餘、現金流量及資產價值增長高於一般水平的公司。</p> <p>本基金可將合共不超過 30% 的資產淨值投資於現金與約當現金、貨幣市場工具、任何不符合上述規定的公司或其他實體所發行的股票及股票相關工具，或世界各地發行機構的債務證券 (包括可轉換債券)。</p> <p>本基金只可為有效率投資組合管理及對沖目的而運用金融衍生工具。</p>	<p>本基金的目標為實現長期資本增值。</p> <p>本基金結合主題性與環境、社會與公司治理 (ESG) 方法，特別關注環境標準。</p> <p>本基金透過主要投資於對替代能源轉型 (能源轉型) 及對整體經濟能更有效率及永續性的能源使用有正面貢獻的全球公司股票與股票相關證券以達其目標。</p> <p>該等公司的篩選，則透過高度專業的自然語言處理 (NLP) 技術，按按自有的總體主題評分，根據未結構化的新聞資料，評估一家公司涉獵能源轉型相關關鍵主題的程度。</p> <p>本基金乃遵循結構嚴謹、定義明確的投資流程來選擇股票。透過應用 NLP 演算法處理多元資料來源，可辨識</p>

出攸關能源轉型相關創新及變化的一系列關鍵主題與關鍵字，在每一個主題中，進一步根據所定義的新聞範疇相關程度，辨識、篩選出符合的公司。NLP演算法（更詳盡之說明請參基金ESG政策）亦將被使用，以下列涵蓋之重要領域篩選公司：

- 清淨能源主題：聚焦清淨能源的生產與供應，包括但不限於可再生能源來源，如風力、太陽能、綠色氫或潮汐。其中包括為清淨能源生產及永續能源儲存提供技術或供應的業者，以及清淨能源公用事業與能源公司。
- 能源轉型與效率主題：本基金尤其關注能源使用與效率管理，包括低碳技術、綠色基礎建設及綠色動力能源。

經NLP流程後，亦將進一步採用ESG條件，確保該公司不僅從新聞中對轉型主題相關消息有積極涉獵，也滿足投資經理持續應用與檢視的內部定義之ESG標準，以此透過篩選刪去公司（更詳盡之說明請參基金ESG政策）。ESG標準被投資經理持續檢視及應用。該等具約束力之標準皆納入選股與投資組合建構方面的計量投資流程。

該流程將透過篩選，排除特定業務活動的收益或營業額超過預設限額的發行機構所發行證券，這類業務活動包括但不限於化石燃料工業、煤礦或核能相關業務、油砂與油頁岩之開採、水力壓裂或極地探鑽業務、禁用化學物質之生產、危害生物多樣性的業務、製造污染的業務、爭議性武器之生產或銷售、菸草之生產與經銷等，或涉及與污染防治與管理、水資源保護或社會參與等領域有關的爭議。所有考慮投資的發行機構均需通過篩選，確保遵守聯合國全球契約原則，且如未符合者，則排除之。現行排除標準將不時更新。

最後，將使用自有評等和衡量企業向低碳經濟過渡的能力的第三方指標構建投資組合，以俾最終配置將反映得分較高的公司的權重偏高，而分數較低的公司的權重偏低。

本基金可將總額不超過30%的資產淨值投資於現金與約當現金、貨幣市場工具、及其他可轉讓證券，此等亦將符合本基金的ESG標準。

如需本基金的ESG政策、標準及永續活動相關之潛在投資的詳細資訊，敬請參閱管理公司網站。

	<p>本基金只可為有效率投資組合管理及避險目的運用衍生性金融工具。</p> <p>基於避險目的以外使用的衍生性金融工具亦將符合本基金的 ESG 標準。</p>
--	---

因上述變更，「持倉集中度風險」和「行業集中風險」將不再被視為景順能源基金重新定位後的相關風險。此外，「環境社會公司治理(ESG)風險」將被視為景順能源基金重新定位後之相關風險。公開說明書第 8 節（風險警語）中揭露之風險表格將自 2021 年 4 月 8 日起進行相應更新。

有關投資組合相關投資任何調整比重的開支合理估計為 15 基點。因相信重新定位係為了提供投資者具有改進之風險調整結構、顯著改進之訂價及較高達成長期增長機會之基金，從而受惠於規模經濟效益，此等開支將由景順能源基金承擔。

股東應注意，投資組合重新定位將於生效日大致完成，不過由於本基金之規模，若干交易需要數個營業日方能完成，預期全部完成最多需 5 個營業日。因此，經重新定位後的景順能源基金可能在 2021 年 4 月 14 日前無法完全遵守新投資目標及政策。雖然預計整個流程可以在 5 個工作日內完成，但某些不可預見的事件（例如市場流動性）可能導致其無法實現，惟此未完成之比例預計不會太大。

D.2 景順能源基金更改名稱

敬請留意，為反映其已更新投資政策，2021 年 4 月 8 日起，景順能源基金將更名為景順能源轉型基金。

D.3 降低管理費

2021 年 4 月 8 日起，景順能源基金的管理費將降低如下：

股份類別	現有管理費	新管理費
A	1.50%	1.00%
B	1.50%	1.00%
C	1.00%	0.60%

「I」股份類別的管理費並無變動，因該等股份毋須承擔任何管理費。

D.4 更改計算景順能源基金全球風險承擔的指標

2021 年 4 月 8 日起，用於計算全球曝險的方法將從相對風險值法（VaR）修改為承諾法。在評估景順能源基金投資策略的複雜性及其對衍生性工具的潛在曝險後，承諾法得以適當衡量景順能源基金之市場風險。

D.5 投資經理之變更

2021 年 4 月 8 日起，投資經理將更改為 Invesco Asset Management Deutschland GmbH（以取代 Invesco Advisers, Inc.）。Invesco Asset Management Deutschland GmbH 在計量策略上擁有卓越能力。

如上述任何修訂未能符合您的投資需求？

您除了得無需支付贖回費為贖回外（如上述），亦得將景順能源基金轉換至 SICAV 下之其他基金，惟此要求須於 2020 年 4 月 8 日前收到（須符合公開說明書所載之最低投資額之規定，並取決於特定基金是否獲准於您所在之相關司法轄區內銷售）。該轉換將依據公開說明書所載之條款進行，惟不會就任何該等轉換收取轉換費。決定投資其他基金之前，您應先參閱該基金之公開說明書及其所涉風險。

未免疑義，就B股份之贖回，如適用，將不收取或有遞延銷售費用。此豁免適用於B股份之贖回。

茲確信重新定位景順天下地產證券基金得以提供本基金更大的成長潛力及長期而言得降低費用。

景順天下地產證券基金的投資目標及政策將予修訂，進一步詳情載於下文：

因上述變更，「環境社會公司治理(ESG)風險」將被視為景順天下地產證券基金重新定位後之相關風險。公開說明書第8節（風險警語）中揭露之風險表格將自2021年4月8日起進行相應更新。

有關投資組合相關投資任何調整比重的開支合理預計為 15 基點。因相信重新定位係為了提供投資者已改善的風險調整概況、顯著改進之訂價及長期而言較高的成長機會之基金，從而受惠於規模經濟效益，此等開支將由景順天下地產證券基金承擔。

股東應注意，投資組合重新定位將於生效日大致完成，不過由於本基金之規模，若干交易需要數個營業日方能完成，預期全部完成最多需5個營業日。因此，經重新定位後的景順天下地產證券基金可能在 2021 年 4 月 14 日前無法完全遵守新投資目標及政策。雖然預計整個流程可以在5個工作日內完成，但某些不可預見的事件（例如市場流動性）可能導致其無法實現，惟此未完成之比例預計不會太大。

G.2 景順天下地產證券基金更改名稱

敬請留意，為反映其已更新投資政策，自 2021 年 4 月 8 日起，景順天下地產證券基金將更名為景順實質資產社會責任基金。

G.3 更改計算全球風險承擔的指標

自 2021 年 4 月 8 日起，為反映其已更新投資目標及政策，使用相對 VaR 方法計算 Invesco Global Real Estate Equity Fund 全球風險承擔的指標將由 FTSE EPRA/NAREIT Developed Index 改為 S&P Real Assets Equity Index。

前述任何修訂是否未能符合您的投資需求？

您除了得無需支付贖回費為贖回外（如上述），亦得將景順天下地產證券基金轉換至SICAV下之其他基金，惟此要求須於2020年4月8日前收到（須符合公開說明書所載之最低投資額之規定，並取決於特定基金是否獲准於您所在之相關司法轄區內銷售）。該轉換將依據公開說明書所載之條款進行，惟不會就任何該等轉換收取轉換費。決定投資其他基金之前，您應先參閱該基金之公開說明書及其所涉風險。

Dear Shareholder,

We are writing to you as a Shareholder of the Invesco Funds due to several amendments, as further described below, to be included in the Prospectus dated 10 March 2021. If any of the below mentioned amendments do not suit your investment requirements, you are advised that you may, at any time redeem your shares in the Funds without any redemption charges. Redemptions will be carried out in accordance with the terms of the Prospectus.

Unless otherwise stated below, all costs associated with the proposed below changes will be borne by the Management Company.

A. Change of Registrar and Transfer Agent

After a period of detailed consultation and provider analysis, the management company of the SICAV, with the approval of the Directors, have decided to appoint Bank of New York Mellon SA/NV, Luxembourg Branch ("BNYM") in replacement of International Financial Data Services (Luxembourg) S.A. ("IFDS"), in order to align our operating model with BNYM, who already acts as Depositary and Administration Agent for the SICAV.

For the avoidance of doubt, as part of this transition, Data Processing Agent services will also be migrated from International Financial Data Services (Ireland) Limited to BNYM. The change of Registrar and Transfer Agent will be effective as of 03 May 2021.

This change will have no material impact on how the Funds are being managed, nor on their fee structure.

You do not need to take any action at this time, we will write to you again to outline the changes to the administration of your account in full, for example, your new account number and information on how to contact BNYM.

Ancillary to the above change, from 03 May 2021 the 3rd paragraph of the definition of "Settlement Date" will be updated by adding the wording underlined below to reflect the operational practice:

"If on such third Business Day, banks are not open for business in the country of the currency of settlement or the country of the share class currency, then the Settlement Date will be on the next Business Day on which those banks in that country are open".

By way of example, if a Shareholder investing in a share class denominated in USD redeems in Euro, and US banks are not open on the third Business Day following acceptance of the dealing application, the Settlement Date will be on the next Business Day on which the US banks are open (even if the EU banks are open on the third Business Day following acceptance of the dealing application).

For the avoidance of doubt, similar change will be added to the definition of "Settlement Date" for Invesco China A-Share Quality Core Equity Fund, Invesco China A-Share Quant Equity Fund and Invesco China Health Care Equity Fund for which the Settlement date shall be on the second Business Day after the date of acceptance of the application.

B. Update to the means of communication for notices to Shareholders

Section 10.4 (Notices to Shareholders) will be updated in order to provide that where possible and as the case may be, Shareholders will be notified via electronic means (such as the Invesco Local Website, the Website of the Management Company (<https://www.invescomanagementcompany.lu/lux-manco/shareholder-notices.html>) or/and via email).

Kindly note that such change to the means of communication will apply as from 08 April 2021.

C. Use of securities lending transactions

From 08 April 2021, the Funds may use securities lending transactions. The expected proportion of the NAV of Funds subject to securities lending will be 20%. Under normal circumstances, the maximum proportion of the NAV of the Funds subject to securities lending will be either 29% or 50% as stated in Appendix A of the Prospectus.

The "Securities Lending and Repurchase/Reverse Repurchase Transactions Risk" may therefore apply to the Funds from 08 April 2021.

Unless otherwise stated in Appendix A of the Prospectus, 90% of the revenues arising from securities lending will be returned to the Fund and the remainder (being 10% of the revenues, representing the attendant direct and indirect operational costs and fees of the securities lending agent) will be retained by the securities lending agent.

D. Change to the features of the Monthly Distribution-1 Shares for Fixed Maturity Funds only

From 08 April 2021, some amendments will be included in Section 4.4.2.3 (Monthly Distribution-1 Shares) in order to include additional features applicable to the Fixed Maturity Funds only.

At the beginning of the Fixed Maturity Fund's life a stable distribution rate will be set, which, unless determined otherwise by the SICAV will continue to be paid up to the Fixed Maturity Fund's maturity. In addition, this stable distribution rate may be enhanced each month where there are receipts from bond maturities or where bonds are called. This additional distribution feature will result in Shareholders receiving their initial capital back throughout the lifetime of the Fixed Maturity Fund and they will not get the full amount of their initial capital upon the Fixed Maturity Fund's maturity.

Where this additional distribution applies, it will be explicitly disclosed in the relevant KIID.

E. Changes to the Invesco Energy Fund

It is proposed to proceed with various changes to the Invesco Energy Fund as of 08 April 2021 as further described below.

E1. Change of the investment objective and policy

The Directors have decided to reposition the Invesco Energy Fund from a fundamentally managed energy fund to an energy transition fund that will provide exposure to companies in the area of clean energy, energy transition and efficiency, using a quantitative approach.

In particular, the repositioned strategy will invest in equities of companies which contribute positively to a transition to alternative energies and more efficient and sustainable energy usage across the economy.

The re-positioned Invesco Energy Fund will continue to target long term capital growth, benefiting from a new quantitative investment methodology. In the context of thematic investments, it is believed the proposed changes will meet clients' expectation with regards to responsible investments and should enhance the long-term risk-return profile and growth opportunities of the Invesco Energy Fund.

The investment objective and policy of the Invesco Energy Fund will be amended as further described below:

Current investment objective and policy and use of financial derivative instruments	New investment objective and policy and use of financial derivative instruments as of 08 April 2021
<p>The Fund aims to provide long-term capital growth by investing primarily in a global portfolio of energy stocks, which include major oil companies, energy services, natural gas infrastructure companies and oil and gas exploration and production companies, as well as companies developing alternative energy sources.</p> <p>The Fund focuses on reasonably priced companies with above-average production volume growth and earnings, cash flow and asset value growth.</p> <p>Up to 30% of the NAV of the Fund may be invested in aggregate in cash and cash equivalents, Money Market Instruments, equity and equity related instruments issued by companies or other entities not meeting the above requirement or debt securities (including convertible debt) of issuers worldwide.</p> <p>The Fund may enter into financial derivative instruments for efficient portfolio management and hedging purposes only.</p>	<p>The Fund aims to achieve long-term capital growth.</p> <p>The Fund integrates a thematic and an environmental, social and governance (ESG) approach with a particular focus on environmental criteria.</p> <p>The Fund seeks to achieve its objective by investing primarily in equity and equity related securities of companies globally which contribute positively to a transition to alternative energies (energy transition) and more efficient and sustainable energy usage across the economy.</p> <p>Companies are identified via a sophisticated Natural Language Process (NLP) technique based on a proprietary aggregated thematic score which assesses the company's exposure to key themes pertaining to energy transition based on unstructured news data.</p> <p>The stock selection follows a highly structured and clearly defined investment process. A universe of key themes and underlying keywords addressing innovation and shifts related to energy transition is identified using NLP algorithms on multiple data sources. Within each theme, companies are then identified and selected on the basis of their relevance on defined news universes. NLP algorithms (as more fully described in the Fund's ESG policy) will be used to screen companies on key areas covering:</p> <ul style="list-style-type: none">▪ Clean energy themes: Focus on the production and supply of clean energy including but not limited to renewable energy sources such as wind, solar, green hydrogen or tide. This includes companies providing the technology and the supply for clean energy production, sustainable energy storage as well as clean energy utilities and energy companies.▪ Energy transition & efficiency themes: The Fund additionally focuses on energy usage and efficiency management. This includes areas such as low carbon technologies, green infrastructure and green mobility sources.

	<p>After the NLP process, further ESG filters are applied to ensure that a company is not only positively exposed to transition themes in the news, but also fulfils an internally defined ESG criteria, thus excluding companies through screening(as outlined below and more fully described in the Fund's ESG policy). The ESG criteria are applied and reviewed on an ongoing basis by the Investment Manager. These binding criteria are integrated as part of the quantitative investment process for stock selection and portfolio construction.</p> <p>Screening will be employed to exclude securities issued by issuers which derive or generate a pre-determined level of revenue or turnover from activities such as (but not limited to) fossil fuel industries, activities related to coal or nuclear power, extraction of tar sands and oil shale, fracking or arctic drilling activities, production of restricted chemicals, activities endangering biodiversity, activities generating pollution, manufacturing or sale of conventional weapons, production and distribution of tobacco, or involved in controversies related to the prevention and management of pollution or controversies in the field of protecting water resources or controversies in the field of community involvement. All issuers considered for investment will be screened for compliance with, and excluded if they do not meet, UN global compact principles. The current exclusion criteria may be updated from time to time.</p> <p>Finally, the portfolio will be constructed using a proprietary score together with a third party indicator that measures a company's ability to transition to a lower carbon economy, so that the final allocation will reflect an overweighting on companies with higher scores and an underweighting on those with lower scores.</p> <p>Up to 30% of the NAV of the Fund may be invested in aggregate in cash, cash equivalents, Money Market Instruments and other Transferable Securities, which will also meet the Fund's ESG criteria.</p> <p>For more information on the Fund's ESG policy, criteria and potential investments in sustainable activities, please refer to the Website of the Management Company</p> <p>The Fund may enter into financial derivative instruments for efficient portfolio management and hedging purposes only.</p> <p>The financial derivative instruments used for purposes other than hedging will also meet the Fund's ESG criteria.</p>
--	---

As a result of the above changes, the "Holdings Concentration Risk" and "Sector Concentration Risk" will no longer be considered as relevant risks to the Invesco Energy Fund post-repositioning. In addition, the "ESG Investment Risk" will be considered as a relevant risk to the Invesco Energy Fund post-repositioning. The risk matrix disclosed in Section 8 (Risks Warnings) of the Prospectus will be updated accordingly as of 08 April 2021.

The costs associated with any rebalancing of the underlying investments of the portfolio are reasonably estimated at 15 bps. These costs will be borne by the Invesco Energy Fund, as it is believed that the repositioning will provide investors with a fund with improved risk-adjusted profile, significantly improved pricing and higher opportunities to grow over the long term, thus benefitting from economies of scale.

Shareholders should note that while a significant portion of the rebalancing exercise will be completed on the effective date, due to the size of the Fund certain trades may take a number of Business Days to complete. The entire exercise is expected to take up to 5 Business Days. As a result, the re-positioned Invesco Energy Fund might not comply entirely with its new investment objective and policy up to 14 April 2021. While it is expected that the entire process can be completed within 5 Business Days, it is possible that certain unforeseen events, such as market liquidity may make this not possible, it is expected that any proportion not completed within 5 Business Days will be immaterial.

E2. Change of name of the Invesco Energy Fund

From 08 April 2021, please note that the Invesco Energy Fund will be renamed the **Invesco Energy Transition Fund** in order to reflect the updated investment objective and policy.

E3. Reduction of the management fee

From 08 April 2021, the management fee of the Invesco Energy Fund will be reduced as follows.

Share class	Existing Management Fee	New Management Fee
A	1.50%	1.00%
B	1.50%	1.00%
C	1.00%	0.60%
E	2.00%	1.50%
J	1.50%	1.00%
P/ PI	0.75%	0.50%
R	1.50%	1.00%
S	0.75%	0.50%
T	0.75%	0.50%
Z	0.75%	0.50%

For the avoidance of doubt, there is no change to the management fee in respect of "I" Share classes, as they do not bear any management fee.

E4. Change to method of calculation of the global exposure of Invesco Energy Fund

From 08 April 2021, the methodology used to calculate the global exposure will be amended from relative Value at Risk (VaR) to commitment approach. Following the assessment on the complexity of the Invesco Energy Fund's investment strategy and its potential exposure to derivative instruments, it is considered that the commitment approach is suitable to adequately capture the market risk of the Invesco Energy Fund.

E5. Change to Investment Manager

From 08 April 2021, the Investment Manager will become Invesco Asset Management Deutschland GmbH (to replace Invesco Advisers, Inc.). Invesco Asset Management Deutschland GmbH has a strong expertise on quantitative strategies.

Do any of the above amendments not suit your investment requirements?

In addition to the ability to redeem free of charge as disclosed above, you may also avail of a switch out of the Invesco Energy Fund, provided such requests are received at any time prior to 08 April 2021, into another Fund in the SICAV (subject to minimum investment amounts as set out in the Prospectus and authorisation of the particular Fund for sale in your relevant jurisdiction). The switch will be carried out in accordance with the terms of the

Prospectus, but no switching fee will be imposed on any such switch. Before taking any decision to invest in another Fund, you must first refer to the Prospectus and the risks involved in relation to the same.

For the avoidance of doubt, in the case of redemption of "B" Shares, the Contingent Deferred Sales Charge ("CDSC") will, if applicable, be waived. Such waiver of CDSC applies to redemption of "B" Shares.

F. Changes to the Invesco Pan European Structured Equity Fund

It is proposed to proceed with various changes to the Invesco Pan European Structured Equity Fund as of 08 April 2021 as further described below.

F1. Change of the investment objective and policy

The Directors have decided to change the investment objective and policy of the Invesco Pan European Structured Equity Fund to a fund with an ESG-focus.

It is believed that the repositioning of the Invesco Pan European Structured Equity Fund will meet market standards in terms of ESG factors.

The investment objective and policy of the Invesco Pan European Structured Equity Fund will be amended as further described below:

Quantitative indicators that are available for each stock in the investment universe are analysed and used by the Investment Manager to evaluate the relative attractiveness of each stock. It is proposed to proceed with various changes to the Invesco Global Structured Equity Fund as of 08 April 2021 as further described below.

G1. Change of the investment objective and policy

The Directors have decided to change the investment objective and policy of the Invesco Global Structured Equity Fund to a fund with an ESG-focus. In addition, as part of the repositioning, the strategy will be moved from a 100% USD portfolio hedging to an open currencies approach to be in line with the investment universe currency exposure.

It is believed that the repositioning of the Invesco Global Structured Equity Fund will meet market standards in terms of ESG factors.

The investment objective and policy of the Invesco Global Structured Equity Fund will be amended as further described below:

From 08 April 2021, please note that the Invesco Global Structured Equity Fund will be renamed the **Invesco Sustainable Global Structured Equity Fund** in order to reflect the updated investment objective and policy.

Do any of the above amendments not suit your investment requirements?

In addition to the ability to redeem free of charge as disclosed above, you may also avail of a switch out of the Invesco Global Structured Equity Fund, provided such requests are received at any time prior to 08 April 2021, into another Fund in the SICAV (subject to minimum investment amounts as set out in the Prospectus and authorisation of the particular Fund for sale in your relevant jurisdiction). The switch will be carried out in accordance with the terms of the Prospectus, but no switching fee will be imposed on any such switch. Before taking any decision to invest in another Fund, you must first refer to the Prospectus and the risks involved in relation to the same.

H. Change of the Benchmark to calculate the global exposure for Invesco Asian Investment Grade Bond Fund

From 08 April 2021, the benchmark used to calculate the global exposure of the Invesco Asian Investment Grade Bond Fund will change from 80% JPM JACI Investment Grade Index and 20% Bloomberg Barclays China Treasury and Policy Bank Total return Index (CNY) to **85% JPM JACI Investment Grade Index and 15% Bloomberg Barclays China Treasury and Policy Bank Total Return Index (CNY)**. Based on the investment objective and policy of the Invesco Asian Investment Grade Bond Fund, it is believed that reducing the exposure to the China onshore bond portion of the index will provide a better indicator to calculate the global exposure of the Invesco Asian Investment Grade Bond Fund using the relative VaR methodology due to the fact that the maximum exposure to the Chinese onshore debt market is only 20%. The new benchmark will also be used as a comparator for marketing purposes.

This change will have no impact on how the Invesco Asian Investment Grade Bond Fund is being managed nor will it materially impact its risk profile.

I. Change to Invesco Global Real Estate Securities Fund

It is proposed to proceed with various changes to the Invesco Global Real Estate Securities Fund as of 08 April 2021 as further described below.

11. Change of the investment objective and policy

The Directors have decided to reposition the Invesco Global Real Estate Securities Fund to a global real assets strategy with an ESG approach. The Invesco Global Real Estate Securities Fund will apply a defined ESG framework to guide its active investments in primarily listed real estate and infrastructure but may also on an ancillary basis include natural resources and timber companies worldwide.

It is believed that the repositioning of the Invesco Global Real Estate Securities Fund may provide for greater growth potential for the Invesco Global Real Estate Securities Fund and by association lower fees over the longer term.

The investment objective and policy of the Invesco Global Real Estate Securities Fund will be amended as further described below:

Current investment objective and policy and use of financial derivative instruments	New investment objective and policy and use of financial derivative instruments as of 08 April 2021
<p>The Fund aims to achieve long-term capital growth together with income.</p> <p>The Fund seeks to achieve its objective by investing primarily in a diversified portfolio of global equity (including Real Estate Investment Trusts ("REITs")), preference shares and debt securities, issued by companies and other entities which derive their revenues from activities related to real estate.</p> <p>The Fund's exposure to US REITs will be primarily to US commercial real estate.</p> <p>Debt securities will have an underlying exposure to, or will be secured by mortgages or similar instruments and will have a credit rating of investment grade or higher as rated by Standard & Poor's (S&P) or equivalent.</p> <p>Up to 30% of the NAV of the Fund may be invested in equity or debt securities, which do not meet the above requirements but are issued by companies and other entities which have a substantial exposure to the real estate market or government debt securities with a credit rating of AAA as rated by S&P or equivalent.</p> <p>Less than 30% of the NAV of the Fund may be invested in debt securities and no more than 10% of the NAV of the Fund may be invested in debt securities which are unrated and/or whose credit rating is below investment grade.</p> <p>Up to 20% of the NAV of the Fund may be invested in cash equivalents and Money Market Instruments.</p>	<p>The Fund aims to achieve long-term capital growth.</p> <p>The Fund seeks to achieve its objective by investing primarily in equities of listed real estate (including Real Estate Investment Trusts ("REITs")) and infrastructure companies, which meet the Fund's environmental, social and governance (ESG) criteria as further detailed below.</p> <p>The Fund will utilise a fundamental, bottom-up approach and will invest in companies that, in the opinion of the Investment Manager, are backed by tangible assets with values derived from high barriers to supply and increasing replacement costs. The Fund's ESG criteria will be reviewed and applied on an ongoing basis by the Investment Manager. This approach will include the following aspects:</p> <ol style="list-style-type: none"> 1. Screening will be employed to exclude securities issued by issuers which derive or generate a pre-determined level of revenue or turnover from activities such as (but not limited to) fossil fuel industries, activities related to thermal coal mining, extraction of tar sands and oil shale, fracking or arctic drilling activities, manufacturing or sale of conventional weapons, production and distribution of tobacco, or involvement in controversies related to endangering biodiversity, the prevention of accidental pollution and waste management, water resources or community involvement. All issuers considered for investment will be screened for compliance with, and excluded if they do not meet, UN global compact

<p>The Fund may enter into financial derivative instruments for efficient portfolio management and hedging purposes only.</p>	<p>principles. The current exclusion criteria may be updated from time to time.</p> <p>2. The Investment Manager will also use positive screening to identify higher rated issuers, based on the Investment Manager's proprietary rating that uses internal and third party data, which in the view of the Investment Manager meet sufficient practice and standards in terms of ESG and sustainable development for inclusion in the Fund's universe (as more fully described in the Fund's ESG policy).</p> <p>Listed real estate securities and listed infrastructure companies are intended to include, but are not limited to companies focused on renewables, transportation, telecommunications, energy, and water.</p> <p>Up to 30% of the NAV of the Fund can have an opportunistic allocation towards other real assets that meet the Fund's ESG criteria such as natural resources and timber as well as debt securities of issuers linked to real assets.</p> <p>The Fund's exposure to cash, cash equivalents and Money Market Instruments, which are held on an ancillary basis within the above 30%, may not be wholly aligned with the Fund's specific ESG screening criteria.</p> <p>As a result of all of the above ESG criteria for screening, it is expected that the size of the investment universe of the Fund will be reduced by about 50% in terms of number of issuers.</p> <p>For more information on the Fund's ESG policy, criteria and potential investments in sustainable activities, please refer to the Website of the Management Company.</p> <p>The Fund may enter into financial derivative instruments for efficient portfolio management and hedging purposes only. Such derivatives may not be fully aligned with the Fund's ESG screening criteria.</p>
---	--

As a result of the above changes, the "ESG Investment Risk" will be considered as a relevant risk to the Invesco Global Real Estate Securities Fund post-repositioning. The risk matrix disclosed in Section 8 (Risks Warnings) of the Prospectus will be updated accordingly as of 08 April 2021.

The costs associated with any rebalancing of the underlying investments of the portfolio are reasonably estimated at 15 bps. These costs will be borne by the Invesco Global Real Estate Securities Fund, as it is believed that the repositioning will provide investors with a fund with improved risk-adjusted profile, significantly improved pricing and higher opportunities to grow over the long term, thus benefitting from economies of scale.

Shareholders should note that while a significant portion of the rebalancing exercise will be completed on the effective date, due to the size of the Fund certain trades may take a number of Business Days to complete. The entire exercise is expected to take up to 5 Business Days. As a result, the re-positioned Invesco Global Real Estate Securities Fund might not comply entirely with its new investment objective and policy up to 14 April 2021. While it is expected that the entire process can be completed within 5 Business Days, it is possible that certain unforeseen

events, such as market liquidity may make this not possible, it is expected that any proportion not completed within 5 Business Days will be immaterial.

12. Change of name of the Invesco Global Real Estate Securities Fund

From 08 April 2021, please note that the Invesco Global Real Estate Securities Fund will be renamed the **Invesco Responsible Global Real Assets Fund** in order to reflect the updated investment objective and policy.

13. Change of the benchmark to calculate the global exposure

From 08 April 2021, in light of the updated investment objective and strategy, the benchmark used to calculate the global exposure of the Invesco Global Real Estate Securities Fund using the relative VaR methodology will change from FTSE EPRA/NAREIT Developed Index to S&P Real Assets Equity Index.

Do any of the above amendments not suit your investment requirements?

In addition to the ability to redeem free of charge as disclosed above, you may also avail of a switch out of the Invesco Global Real Estate Securities Fund, provided such requests are received at any time prior to 08 April 2021, into another Fund in the SICAV (subject to minimum investment amounts as set out in the Prospectus and authorisation of the particular Fund for sale in your relevant jurisdiction). The switch will be carried out in accordance with the terms of the Prospectus, but no switching fee will be imposed on any such switch. Before taking any decision to invest in another Fund, you must first refer to the Prospectus and the risks involved in relation to the same.

J. Changes to the Invesco Japanese Equity Value Discovery Fund

It is proposed to proceed with some changes to the disclosures of the Invesco Japanese Equity Value Discovery Fund as of 08 April 2021 as further described below

J1. Changes of the investment objective and policy

The Directors have proposed to enhance the current investment objective and policy of the Invesco Japanese Equity Value Discovery Fund, in particular to provide greater clarity on the ESG investment approach and characteristics of the Invesco Japanese Value Discovery Fund.

As a result of the above clarifications, the "ESG Investment Risk" will be considered as a relevant risk to the Invesco Japanese Equity Value Discovery Fund. The risk matrix disclosed in Section 8 (Risks Warnings) of the Prospectus will be updated accordingly as of 08 April 2021.

The proposed clarifications will not result in any significant changes on the way the Invesco Japanese Equity Value Discovery Fund is being managed.

The updated investment objective and strategy is available on the Prospectus dated 10 March 2021.

J2. Change of name of the Invesco Japanese Equity Value Discovery Fund

From 08 April 2021, please note that the Invesco Japanese Equity Value Discovery Fund will be renamed the **Invesco Responsible Japanese Equity Value Discovery Fund** in order to reflect the updated investment objective and policy.

K. Change of name of Invesco Developing Markets SRI Equity Fund

From 08 April 2021, please note that the Invesco Developing Markets SRI Equity Fund will be renamed the **Invesco Developing Markets Select Equity Fund** in order to reflect better its current investment objective and policy.

This change will have no impact on the way the Invesco Developing Markets SRI Equity Fund is being managed nor result in any material change to its risk profile.

L. Change of the investment objective and policy and the relevant risks applicable of the Invesco Global Targeted Returns Fund, the Invesco Global Targeted Returns Select Fund, the Invesco Global Targeted Returns Plus Fund and the Invesco Global Unconstrained Bond Fund (the "Funds")

From 8 April 2021, the investment objective and policy of the Funds will be enhanced in order to allow the Funds to access China onshore bonds in the CIBM via Bond Connect for less than 10% of their NAV.

As a result of the changes, Bond Connect risks will also be applicable to the Funds and highlighted in the risk matrix disclosed in Section 8 (Risks Warnings) of the Prospectus.

Otherwise, the changes will have no material impact on the way the Funds are managed nor on their risk profile.

M. Inclusion of the use of total returns swaps for Invesco Belt and Road Debt Fund and Invesco Asian Flexible Bond Fund (the "Funds")

From 08 April 2021, please note that the Funds will be allowed to use total returns swaps as it is believed that this will provide the investment team with additional tools to manage the portfolio. The expected proportion subject to total return swaps will be 10% of the Funds' NAV. Under normal circumstances, the maximum proportion of the NAV of the Funds subject to total return swaps will be 30%.

It is not anticipated that the above change will have any material impact on the risk profile of the Funds.
